ANALYSIS OF FACTORS AFFECTING THE INTENSITY OF R&D AT COMPANIES LISTED ON INDONESIASTOCK EXCHANGE IN 2013-2017

NPM: 1542074
Naomi Marsaulina H

Abstract

This study tested the foreign ownership, managerial ownership, government ownership, financial distress, board size, and growthagainst the Intensity of R&D. From this study used a 106 companies, the equivalent of 530 samples listed on the Indonesia Stock Exchange from period 2013-2017. This study applies the purposive sampling method. The data obatined from the data used in the financial statements of the company which publised on the website www.idx.co.id. The sample taken in this study are all types of companies that have criteria according to research needs, especiallt those that have R&D expenditure accounts.

The results on this research show that the government ownership and board size has a significant negative effect on the R&D intensity, while the foreign ownership has a significant positive effect on the R&D intensity, and managerial ownership, financial distress, and growth does not have a significant effect on the R&D intensity.

Keywords: *R&D intensity, foreign ownership, government ownership, financial distress, growth, board size.*
