Aditya Rahmat Giffary

Vietnam Refugee Camp is a historical tourism site that situated in Galang Island, City of Batam, Riau Archipelago Province. The site had some historical value that can improve people’s knowledge, about refugees that come to the site due to civil war that occurred in Vietnam. Author feels that a documentary video could become a good media to improve awareness among people to taking care of the historical place. Indirectly, the documentary video could be an advertisement for the tourism site.

The making process of the video were using MDLC method that include of concept, design, material collecting, assembly, testing, distribution.

Key Words: Video, Documentary, MDLC, Tourism, Vietnam Refugee Camp, History
