**COMPARATIVE LAW IN THE SETTLEMENT UNHEALTHY OF
BUSINESS COMPETITION CASES BETWEEN INDONESIA
AND UNITED STATES OF AMERICA**

NPM : 1551167
Jefri Kurniawan

Abstract

The task will be the end of this aims to analyze in the implementation of the settlement an unhealthy business competition by comparing the similarities and differences in two different countries which is Indonesia is developing world, and the United States of America is the developed countries.

The study used a writer, he's a research legal normative with exploring the theories, concepts the principles of law and applicable legislation in both countries. This type of data used is the secondary, which consists of the law primary, secondary and tertiary as well as the primary. The gathering data done by way of literature. Research of this with the comparison of the rule of law, where data are analyzed a sort of descriptive set of qualitative.

The results that writers get the study of literature, then there are some differences and the equations that described the author in this study as in accordance with the Theory of Justice The comparison is presented by Michael Bogdan as well as some of the things that can adapt in Indonesia regarding the conduct of law enforcement business competition more flexible in receiving suggestions or inputs in order of these agencies without losing the nature of the independent and can be more effective in the framework of the law enforcement business competition.
