*This thesis is expected to find out how to control illegal distribution of alcoholic beverages by Batam City Customs and the countermeasures that can be taken in preventing illegal acts of illegal alcohol distribution*

*The juridical empirical method is used in this research, namely research that aims to obtain knowledge of how the law relates to the community and the factors that influence the implementation of the law in society. The data that has been collected is then processed and analyzed, then compiled and described descriptively by drawing conclusions from the results of the data analysis.*

*The conclusion that the author can conclude in this study is that the Customs and Excise of Batam City can supervise the three Authority Theories, namely Attribution Authority, Delegation Authority, and Mandate Authority. As well as in efforts to overcome crime, it can be carried out with Pre-Emptive Efforts, Preventive Efforts, Repressive Efforts.*
