## **JURIDICAL OBSERVATION OF SURVEILLANCE OF ILLEGAL PROCESSED FOOD DISTRIBUTION BY THE NATIONAL AGENCY OF DRUG AND FOOD CONTROL IN BATAM**

NPM: 1551091  
Jepriyaman

### Abstract

The National Agency of Drug and Food Control (NADFC/BPOM) has a realization unit in Kepulauan Riau named POM Batam. Which the purpose and the task has the similarity with The National Agency of Drug and Food Control that is to control food and drug distribution, only POM Batam, the surveillance area only cope within Kepulauan Riau. Including The illegal distribution of processed food. This act doesn't have a legal distributive permission which violate the regulation of Article 91 Code Number 18, 2012 about food. Based on that, it needs a role from POM Batam to supervise and overcome the illegal processed food mentioned.

Writer is using the Empirical method. The writer does his research directly in order to solve the mentioned issues. Which in this case, The Writer does the research in POM Batam. In empirical research, The Writer uses premier data as the main data to observe and interview the person in charge in POM Batam and the secondary data as the supporting data.

Based on the research's results, in surveilling of illegal distribution of processed food by POM Batam, the apply the concept of Pre-Market and Post-Market that is based on law regulation. Next, to solve the issues mentioned, POM Batam also take the step of overcoming that either in Pre-emptive, Preventive and Repressive. However, the step that been taken still don't go according to the plan and the increasing and empowering in either the preventive or repressive step in order to overcome the mentioned issue effectively.
