CRIMINOLOGY REVIEW OF CRIMINAL ACT PEDOPHILIA IN BATAM CITY

NPM: 1551124
Hendy Sugianto

Abstract

Crime act is an act that is prohibited and which can be punished in accordance with statutory regulations, one of the dominant crimes in the City of Batam is sexual crimes against children or pedophilia, Pedophilia is sexual drive of someone aimed at children or who has not reached puberty.

This study discusses and analyzes the criminology of crime act pedophilia and solutions to criminal acts of pedophilia. This information and research aims to find out the criminological review of pedophilia and to find solutions to pedophilia by using differential association theory analysis. This research is a library-research study with qualitative analysis, namely by describing data that already exists or is available in secondary form with words, or statements that do not use numbers.

Pedophilia is a adult sexual drive to children that has yet reach age of puberty. pedophilia presents the risk of developing pedophilia traits or thoughts to its victims Through this research, it can be seen criminal review of pedophilia and solutions to pedophilia. Based on the results of this research analysis, it is hoped that Indonesia Government, in particular the Commission for the Supervision and Protection of Children can be immediately formed in areas that are still unreachable so that it can provide protection and solving the cases of children and increase supervision from parents or guardians of the children themselves.

Keywords: Criminology, Crime Act, Pedophilia
