Abstract

Child-Friendly City is a district / city development strategy that integrates the commitments and resources of government, business, and communities that are planned and sustainable in the program for fulfilling children’s rights. Since birth, children have their rights as human beings, child protection is needed to ensure that their rights as human beings can be fulfilled.

Every child has the right to live, to grow, to develop and participate fairly in accordance with the dignity and dignity of humanity, and receive protection from violence and discrimination. Every child has the right to worship according to his religion, thinking and expressing according to their intelligence level and age in parental guidance. Every child has the right to acknowledge by their parents, every child has the right to be raised and cared for by their own parents.

In Batam City, eventhough Child Friendly City Program has been implemented but not yet optimal because there are still ineffective in fulfilling the indicators based on the research results.
