## THE APPLICATION OF EDUCATIONAL FACILITIES FOR PERSONS WITH DISABILITIES PHYSICAL OF TERTIARY INSTITUTIONS IN BATAM

**NPM: 1551022**

**Desy Anggelina**

### **Abstract**

Humans are social creatures that need interaction with others. Humans have human rights from the moment he was born that can not be disturbed by anyone. Human Rights include the right to Education so that every non-disabled person or person with a disability has the right to obtain Education without having to discriminate.

The method used in the thesis research that the author uses is Empirical Law research which in this case the author uses primary data as the main data that the authors get by conducting interviews and requesting data at the Batam City University related to Special Facilities for Persons with Disabilities in Higher Education in BatamCity .

Based on this research, the results obtained by researchers from the formulation of the problem are the first, regarding the Application of Educational Facilities for persons with disabilities in accordance with existing provisions and regarding Obstacles in providing educational facilities and infrastructure for Disability Disbursers in Batam City College.
