Abstract

Law Number 20 of 2008 concerning Micro, Small and Medium Enterprises is formed to regulate market structures that guarantee fair business competition. The issuance of Government Regulation No. 17 of 2013 on the Implementation of Law Number 20 Year 2008 on Micro, Small, and Medium Enterprises is basically aimed at empowering Micro, Small, and Medium Enterprises in improving their protection and certainty. Through these two regulations, the Business Competition Supervisory Commission is given a new mandate by the State that is the Supervision of Micro, Small and Medium Enterprises Partnerships (UMKM) so that it is free from the bad influence of Large Business who want to control UMKM.

The author conducted normative juridical research with the type of data that the author uses, namely secondary data sourced from primary legal materials, secondary legal materials, and tertiary legal materials. To obtain these data, the author conducted library research and interview techniques and analyzed them with qualitative descriptive methods.

Based on the results of research by the author, the Supervision of Partnership conducted by the Regional Office II Batam has been carried out in accordance with the provisions of the legislation and is still limited to carrying out preventive measures to avoid any form of violation of the Law. Nevertheless, the Business Competition Supervisory Commission (KPPU) has proven that the Partnership Oversight can be carried out well, namely by making efforts to increase the integrity of business actors, regional governments and other institutions that oversee the UMKM partnership sector, namely the State Minister for Cooperatives Small and Medium Enterprises. However, there are several factors that hinder KPPU in carrying out this task, namely in the form of external factors which include the culture of the people involved in the UMKM sector as well as the limited authority given by the law.
