Abstract

Traditional Chinese food has a lot of stories and legends filled with morals since it first appeared, but these days the Indonesian community doesn’t know the stories and legends. We decided to create a documentary video using interview and demonstration method as a solution to this problem. This project is edited with Adobe Photoshop CC 2017 and Adobe Premiere Pro CC 2017. The result of this project is implemented on YouTube and gathered 1510 views and 349 likes, and it is still ongoing. We tested the video by interviewing the viewers, and we concluded based on the interview results that the video successfully told the stories of traditional Chinese food to viewers.

Keywords: Documentary Video, Traditional Chinese Food, Demonstration Method, Interview Method, Adobe Premiere, Adobe Photoshop.
