**DESIGN AND IMPLEMENTATION WEB BASED SUBMISSION
APPLICATION FOR PT. PUTRA INDO CAHAYA**

STEVEN
NPM : 1531086

ABSTRACT

This project aims to help PT. Putra Indo Cahaya in handling the slow information of leaves being delivered to human resource department, the approval of leaves request is too long because request are waiting to be checked by human resource department.

The application is a web based application that serves to submit and receive company employee leave.

In writing report, the web applications are designed using HTML, JavaScript and CSS programming languages. This web application is expected to improve or accelerate the company's business processes.

Keyword : *web, application, leave, html*
