

ABSTRACT

PERANCANGAN WEBSITE E-COMMERCE PADA CV.SINARMAS TEJARIYAH

Hanandika Al Mumtasj Raharjo

NPM : 1631072

This project aims to create an e-commerce website that has a function to selling products online in the CV. Sinarmas Tejariyah. This project is started in 4 months, from 1 February 2019 to 30 May 2019. The e-commerce website is developed using the programming languages that contains HTML, PHP, Javascript, CSS, and Database MySQL. The result of this work is an e-commerce website that can be used for marketing, selling products online, and recording all transactions on the website.

Keywords : website, e-commerce, php, html
