

ABSTRACT

DESIGN AND IMPLEMENTATION WEB BASED COMPANY PROFILE OF PT. CCCII

NPM : 1631083
WILSON

This internship is intended as a promotional media for PT. CCCII, with this internship, it produces a company profile website that has a domain <https://ccciibatam.com/>.

The results of this internship is a website that is useful for PT. CCCII to let buyers able to know the company's background, the products that the company produced, the projects that have been completed and the location and how to contact the company.

This application was built using the Bootstrap framework and the programming languages PHP and Mysql as backend, HTML, CSS and javascript as the frontend. From the results of this internship, it is expected that with this website, PT. CCCII will be increasingly recognized in local and international.

Keywords : Website, Company Profile, PHP, Mysql, HTML, Bootstrap, CSS, Javascript
