THE DESIGN OF ACCOUNTING INFORMATION SYSTEM AT CV JAYABARU MANDIRI

**EDY KURNIAWAN
NPM : 1642132**

ABSTRACT

The purpose of this practical work is to help entrepreneurs of CV Jayabaru Mandiri in terms of accounting recording systems that can compile financial reports. Stages of the result of the design of system information accounting have been run following the purposes of CV Jayabaru Mandiri with the help of a software that can easily accessible by the user. The process of implementing the practical work schedule starts from July 1, 2019, to September 30, 2019.

The system is designed based on data collection through question and answer and field observations so that the result of the report suits the owner's needs. The system can generate an statement of changes in capital, income statement, financial position, and transactions report.

After CV Jayabaru Mandiri implemented the accounting recording system, the benefits which CV Jayabaru Mandiri get is being able to represent a financial report easily.

Key words: financial statement, accounting, accounting information systems
