THE APPLICATION OF THE FINANCIAL STATEMENT MANAGEMENT SYSTEM IN GO LAUNDRY BUSINESS

**FELBY JESSLYN
NPM: 1641007**

ABSTRACT

This practical work is carried out to assist Go Laundry companies in dealing with the obstacles in managing financial statements. The start of practical work activities from the period September 2019 to December 2019. The author makes an accounting system using Microsoft Excel tools. The author conducted observations, interviews, planning and simulations to collect data in this practical work activities.

The output of the project results is in the form of an accounting system that can provide careful, effective and beneficial financial statements for the company owner to make decisions / policies. The results of the accounting system are the purchase report, sales report, balance sheet report, income statement, and cash flow statement.

After the Go Laundry company uses a system created by the writer, the company becomes easier in managing financial reports and the results of the reports presented by the system are also more specific, making it easier for Go Laundry owners to make decisions
