**ABSTRACT**

SMP Negeri 30 Batam is an institute engaged in education. SMP Negeri 30 Batam has a duty to provide secondary education to the students . Although the school has the authority to educate students, there is still a lack of supervision of acts of violence that occur in the school environment, so there are still many students who still commit violence against fellow students and even teachers. so the writer wants to take this topic for a practical work report.

In this practical work the authors make a flow in which is listed about what is violence and how efforts to prevent so that violence does not occur at school.

From the flow that the author has made, it can be concluded that the flow can provide knowledge to teachers and students to better know how to deal with acts of violence.

*Keyword : SMP Negeri 30 Batam, violence, handling efforts*
