DESIGN ACCOUNTING SYSTEM IN RAWAT MOBILMU BATAM

**SURIANI
NPM: 1642142**

ABSTRACT

The main purpose of carrying this practical work is with the aim of helping UMKM in making reports that is by accounting system for the UMKM. The result of this activity will be applied at Rawat Mobilmu Batam. This business is engaged in coating service, exterior, interior, and body vehicle salon. Since the establishment of this business until now it still records daily transaction manually, which is record in daily notebook.

Making this accounting system through various stages, ranging from interviews, observations, design and application in Rawat Mobilmu Batam. Financial statements are the results issued by the system. The resulting report is also a report that must be owned by the company in accordance with applicable accounting provisions.

Keywords: study, accounting system, financial statements
