ABSTRACT

In carrying out the practical work to present by accounting system information and solve problems of Jaya Laundry. Previous Jaya Laundry have difficulties in taking financial statements, laundry Jaya recording made with a manual in the book. Recording is not by date and the corresponding day so it was difficult to get the proper financial statements and efficiently. Counterpart, owner Integration Laundry Jaya hard scrabble consideration based on the advantages and disadvantages. The problem is found Jaya Laundry can be solved by making an accounting system based Microsoft office access.

Implementation of the cult work by applying research methods are observation and interview in the preparation of the report. Accounting records to display a list of accounts to be able to establish a reporting results.

The results in the implementation of system design in Jaya Laundry in order to get the financial information that is easily understood and accurate than using the manual method.
