DEVELOPMENT OF THE FINANCIAL STATEMENT SYSTEM IN PT. SUMBER JAYA LINGGA

CELINE SETIO
NPM : 1641224

ABSTRACT

The purpose of the work of the author is to improve the financial reporting system of PT. Sumber Jaya Lingga. As a result of the information in the financial statement display is easier to read and understand during the preparation of the financial statements, this makes it easier for business owners to make decisions. The actual work activities will be held from October 15, 2019 to January 31, 2020.

The method used by the author to do the actual work is observation, interviews, finding and formulating problems, collecting data, and designing and implementing systems. Throughout the steps taken, the author focuses on four main financial statements: sales reports, expense reports, cash flow statements and income statements. Prepare or present a financial reporting system using Microsoft Excel 2010.

Improvements to the financial reporting system are designed to help business owners obtain the information they need in the presentation of financial statements to make more accurate and effective business decisions that grow and develop over time

Keywords: Financial Reporting System, Finance, Financial Statement, Decision Making.
