## **DESIGNING GOODS STOCK TO HAPPYMART MINIMART**

**Name : Yulliana  
NPM: 1641004**

### **ABSTRACT**

*This practical work report designed to assist business owners in solving problems and increase sales of their business operations. HappyMart Minimart is business in trade sector run by Mrs. Erni for more than a decade or more than 10 years, located in Ruko Greenland Batam Center Blok E No. 1- 2.*

*Based on the results of interviews conducted by the problem that is currently faced by business owners is the frequent occurrence of chaos in the inventory of goods in warehouses so that they experience a substantial loss in sales every month. This is due to the absence of a system that regulates the recording of inventory of goods in warehouses.*

*Based on the above review, the author will design a warehouse inventory system in the form of an inventory report book. The existence of this system is expected to help solve existing problems and help business owners increase sales.*

*Keywords: System, Inventory stock goods, Inventory Report Book.*
