Essty Yana  
NPM : 1651256

CV. Esti Rizki Construction is a container that houses the author in working on the Job Training Report. The purpose of the existence of practical work that the author is doing is to be able to implement the knowledge that has been obtained during the lecture so that it can have a positive impact on the survival of the company and also employees. With the condition of the company that requires a legal umbrella as a foundation that becomes the basis for the enforcement of company regulations and minimize the occurrence of a risk that is beyond constraints and all the possibilities that occur, therefore the author makes an output that can be applied in such a way.

The method used in making this Job Training Report uses several data collection techniques, including observations and interviews so that it supports the form of data significantly and clearly. In the design phase also made a standard format of the loan-to-use contract that will be applied through a presentation stage in front of company officials. Implementation that runs smoothly and positively so that the existence of a suggestion is encouraging.

The conclusion of the Job Training Report that has been made in such a way gives a positive result so that a contract can be applied to support company regulations. The contract that the author has made in such a way is considered to have a good impact because of the clearly stated obligations and rights of the parties so that there is no overlap or social inequality.
