Abstract

The purpose of this research is to analyze the influence of EPS, PAT, ROE, ROA, and P/B Value on stock prices in banking sector companies listed on the Indonesia Stock Exchange. A total of 35 companies in the 2013 to 2017 period that met the criteria were used in this research. This research utilizes annual financial report data that has been published. The data, processed using the SPSS program in testing Descriptive Statistics, Outlier Tests, Multicollinearity Tests, Heteroscedasticity Tests, Autocorrelation Tests, f Tests, t Tests, and R Square Tests.

In this study, EPS and PAT showed a significant positive effect on Stock Price, while ROE, ROA, and P/B Value did not show a significant effect to the Stock Price in the banking sector companies listed on the Indonesia Stock Exchange in 2013-2017.
